Purpose

Applications are invited for the selection for the award of:

-n. 1 professional grant research fellowship, for the execution of research activities within the project entitled: “*Net Zero Energy Districts*”, according to the annexed Activity Programme:

“The research aims to develop a study for defining the main characteristics of an urban area which will be self-sufficient and autarkic from an energy viewpoint and will impact as less as possible on the environment. This scope can be implemented using the electric energy carrier and electro-technologies which are the most versatile and flexible and, consequently, can be the link with other energy carriers and converters. The study is also aimed at the optimization of energy performances verifying the possibility to adopt Net Zero o Quasi Net Zero Buildings, centralized services (heat pumps, e-mobility and V2X), thermal and electrical storage, renewables producing electricity locally or through Virtual Power Plants, smart grids. Technical economic feasibility will be also assessed”.

The call for applications for the research fellowship issued pursuant to the University Regulation issued by Rectoral Decree (D.R.) no. 252/2016.

The activities shall be carried out under the supervision of a tutor, Scientific Responsible Prof. Tommaso Di Noia in a non-subordinate relationship with no set working hours.

The main place of work will be Metropolitan city of Bari, ITALY

-n. 1 professional grant research fellowship, for the execution of research activities within the project entitled: “*Analysis of the adoption of the open innovation paradigm in the industrial context of the Metropolitan Area of Bari*”, according to the annexed Activity Programme:

“In the current competitive context, an increasing number of firms are adopting the open innovation paradigm to increase the effectiveness and the efficiency of their internal innovation processes. According to the open innovation paradigm, firms should use both internal and external knowledge inputs to sustain their innovative processes. The aim of the project is to analyse the main issues related to the adoption of open innovation strategies in the industrial setting of the Metropolitan Area of Bari. Indeed, understanding how firms may open their internal innovation processes to external stimuli may be undoubtedly beneficial for the same companies to increase their competitiveness, as well as to the whole local economy.”.
