

Frontend Software Engineer (m/f/x) at BurdaForward Italia (Application-Deadline: 31.8.2019)

BurdaForward is the digital media house of the future. Our strong network is based on the journalistic brands FOCUS Online, CHIP, Finanzen100, NetMoms, The Weather Channel, EFAHRER.com and cardscout. We already inspire more than every second internet user in Germany!

BurdaForward is part of Hubert Burda Media, a family company with values. As a publishing house that has been writing media history for more than a hundred years Hubert Burda Media assumes social responsibility by supporting cultural and social organizations to this day.

At BurdaForward we have a common mission: to support and provide people with individual, reliable and solution-oriented content throughout the day and help them lead a better life.

We combine first-class journalism with innovative technology and we happily welcome anyone who wants to join us!

What you could expect...

Ciao Bari! We've opened our new BurdaForward tech office in beautiful Bari this year and we're looking for great people to join our team!

When joining BurdaForward you will find start-up spirit and professional long-term perspectives in a technology-driven environment. Your contribution matters, and you are enabled to grow - personally and professionally. Let's shape the media of tomorrow together!

We are looking for a results-driven Frontend Software Engineer (m/f/x) who will work in a scrum team to develop a new publishing application for digital media and improve our existing platform and services. The Frontend Software Engineer (m/f/x) will use his or her understanding of programming languages, patterns and modern tools to develop the application's frontend architecture, product features, services, and templates according to industry standards.

Your tasks:

- Defining and building the frontend part of the architecture and building the application stack in collaboration with the team
- Development of new features and services in close collaboration with the Product Owner and the development team
- Close cooperation, communication and coordination across all BurdaForward teams, such as Operations and Data Science
- Guiding the junior developers

What we would wish for...

- Bachelor's or master's degree in computer programming, computer science, or a related field or many years of field experience
- Solid experience as Frontend Developer / Software Engineer (m/f/x)
- Solid knowledge of frontend technologies (HTML, CSS, JS) and corresponding frameworks (e.g. Angular)
- Experiences with JavaScript ES6-ES7 and TypeScript are welcome
- Fluent in spoken and written English
- Minimum of 3 years of working experience in designing and developing web applications and architectures
- Strong problem-solving skills
- Quality is important, automated testing and clean code are obvious

Nice to have:

- Experiences in cloud native development (AWS)
- Knowledge of version control systems
- Experience in working with agile methodologies (SCRUM)

What we offer...

- At BurdaForward you will find a technology-driven environment in which your contributions matter and you are enabled to grow – personally and professionally
- Have an impact - you have the possibility to shape our new tech center from the very beginning!
- We encourage an open and direct communication.
- We are a 100% subsidiary company of Hubert Burda Media – this implies a unique compatibility of startup-spirit and professional long-term perspectives.
- You will work at a modern workplace in our freshly opened office! (Via Oberdan 40, 70126 Bari)

Your application:

If you think this position fits to you and that you can help us to have a successful start in Bari, we would be delighted to talk to you. Our team is looking forward to receiving your English application – including your CV, certificates, salary expectations and your earliest possible starting date – via our online application platform.
