

Politecnico
di Bari

Seminars on Analysis and Geometry

February 22, 2017 at 9:00 am

Sala Multimediale, ex Dipartimento di Matematica, II piano

- 09:00 **Wolfgang Reichel**, Karlsruher Institut für Technologie (Germany) *Localized time-periodic solutions of nonlinear wave equations*
- 10:00 **Stefan Suhr**, Universität Hamburg (Germany) *Optimal transportation for Lorentzian manifolds*
- 11:30 **Giovanni Molica Bisci**, Università "Mediterranea" di Reggio Calabria (Italy) *Fractional problems with critical growth*
- 12:30 **Eduardo Colorado Heras**, Universidad Carlos III de Madrid (Spain) *On some systems of coupled NLS and NLS-KdV equations*

These seminars are organized in the context of the activities of the research projects

INdAM-GNAMPA Project 2016 *Fenomeni non-locali: teoria, metodi e applicazioni*

INdAM-GNAMPA Project 2016 *Strutture di tipo finsleriano e campi di Killing*

INdAM-GNAMPA Project 2016 *Studio variazionale di fenomeni fisici non lineari*
