

## Power Plant Control System Administrator

For Siemens we are looking for a Power Plant Control System Administrator. He/she will be responsible for the worldwide execution of control and optimization projects mainly in steam and combined cycle power plants

Main responsibilities in the short term:

- You will be provided an extensive training by means of specific sessions to be held in our Headquarters
- As part of your job, you will be responsible for the administration of the various components of the current power plant control systems of Siemens AG and your work will ensure the availability and functionality of the devices installed at the customer's site.
- In addition, you will carry out installations, updates, upgrades, extensions and migrations to our control technology systems both in-house and on site at the customer's premises.
- Also, the independent, worldwide, preventive and corrective execution of service assignments for these systems for our customers belongs to your area of responsibility.
- You can also analyze system malfunctions via remote access and on-site deployment and correct them.
- Your area of responsibility includes customer consulting and the provision of customer-specific consulting services

Main responsibilities the medium-long term:

- You will have the opportunity of becoming the reference for power plant control administration issues throughout South West Europe
- We are looking for a candidate with the following features:
- Successful university degree in electrical engineering automation engineering or computer Science
- Proven experience in the fields of power control technology. Experience with SPPA T3000 is a plus.
- Detailed knowledge in the field of autonomous network systems with the corresponding components is an advantage.
- First intercultural experiences are also desirable to be able to assess the specific needs of foreign countries / cultures
- Fluency in Italian and business English, other languages are an advantage (Spanish, German, French).
- Extensive willingness to travel.
- Strong orientation to reach the targets and to customer service, initiative, autonomy and propensity to work in team

Siemens offers:

- A permanent contract;
- A flexible way of working;
- Flexible Welfare programs and Health insurance;
- Professional and extraprofessional accident insurance;
- An environment where curiosity is highly appreciated and where we guarantee a continuous training;
- Meal totally paid by the company;
- Personal Computer and Smartphone.

Location: Genova.
